Turner Exhibits serves architects and designers by developing custom fabrication solutions for unique projects. Small, interdisciplinary teams collaborate to evaluate solutions, design, plan, and carry out the production of each project. We seek individuals who value collaboration and who have a strong work ethic, a love of problem solving, and passion for fine craftsmanship.

To pursue employment at Turner Exhibits, please send your resume via email to resumes@turnerexhibits.com. No phone calls, please.

When submitting a resume, make sure electronic documents are in PDF format. To apply for a specific opening listed below, please identify the position in your cover letter. General applications are always welcome even when no position opening is listed.

Open position at Turner Exhibits: Designer

Turner Exhibits seeks an experienced DESIGNER to develop digital models and drawings for custom projects ranging from kinetic architecture systems to permanent exhibits. This position will develop design solutions for operable doors, windows, and skylights, which may be powered manually, electrically, or hydraulically, and casework and exhibit solutions for permanent exhibits and displays. This position requires strong SolidWorks or other 3D modeling and drawing production/drafting skills, experience producing drawing sets for custom fabrication of multi-assembly projects, knowledge of architectural detailing and practices, and the ability to interpret architectural and structural drawings. Strong mechanical knowledge is a plus. Candidates must have excellent communication and collaborative skills. Valid driver's license, automobile liability insurance, and passport are required, as project managers must travel locally, nationally, and internationally to site meetings and installations as required. This is a permanent position with benefits. Wage DOE.

Open position at Turner Exhibits: Installation Project Manager

Turner Exhibits seeks an experienced Project Manager to plan and lead the installation of kinetic architecture systems and exhibits at sites throughout the United States and Canada. Working closely with our design and production teams, this position is responsible for planning shipping, material handling, installation means and methods, and on-site integration at a wide range of job sites, including museum, business, commercial, and residential sites. Candidates must be experienced interpreting architectural drawings, performing layout at job sites, leading diverse installation crews, and defining safe and effective methods of installation. Candidates must have excellent collaboration, planning, communication and problem-solving skills. Familiarity with mechanical and/or electronic control systems is a plus. A strong candidate has fabrication and rigging experience, site installation experience, great organizing skills, and a calm, effective communication style. Valid driver's license, automobile liability insurance, and passport are required, as project managers must travel locally, nationally, and internationally to site meetings and installations as required. This is a permanent position with benefits. Wage DOE.

Open position at Turner Exhibits: Fabricators

Turner Exhibits is seeking experienced Metal Fabricators, Welders, Finish Painters, and Installers to join our dynamic production team. We build exhibits for museums and interpretive centers, corporate displays, and kinetic architecture systems in a positive, collaborative environment. Candidates must be able to read and interpret drawings and produce high quality work. Must be able to lift 70 pounds. A valid driver's license and selected hand tools are required. Fabricators will occasionally be expected to drive company vehicles locally to/from installations and may occasionally travel out of state. These are full-time positions with benefits. Wage DOE.
