

Description

Are you an organized, positive, and collaborative design professional with significant experience and knowledge relevant to the built environments of kinetic architecture, interpretive exhibits, and immersive environments? If so, please read on.

Turner Exhibits is a custom design and fabrication firm, driven by ideas and a culture of collaboration. Innovation and creativity are at the heart of our project portfolios. The diverse perspectives of your future colleagues and clients will inspire and challenge you to be extraordinary as you create transformational and memorable experiences. We partner with technology pioneers, discerning homeowners, cultural institutions, and design leaders to develop custom solutions that are expertly crafted, durable, and safe.

This position is a member of the Design Team. It is exempt, full-time, and reports directly to the Design Director.

Your Role at a Glance

As a member of a multidisciplinary design, fabrication, and installation team, you will work with the project manager to define and refine project design criteria, produce design concepts, develop design details, and create project documentation for custom kinetic architecture and permanent exhibit projects for private, corporate, and not-for-profit clients located throughout the U.S. and Canada. You will participate in value engineering and production feasibility reviews to ensure that your designs can be built, installed, and maintained outside of the digital environment.

This position will offer you opportunities to grow within the firm and give you exposure to an innovative, fast-paced, and highly collaborative environment.

In Your New Role, You Will

- Develop iterative performative & stylistic design solutions in the form of sketches, computer models, drafting, and sample-making.
- Prepare and make design presentations to co-workers, partners, and customers.
- Generate design documentation for fabrication & installation partners.
- Interact with engineering to confirm structural and code compliance.
- Attend client meetings, typically with an account manager or project manager.
- Contribute to scope of work statement that defines customer's expectations in terms of design function and aesthetics.
- Produce content for maintenance and operation manuals.

What You Will Need to Succeed

- Curiosity and interest to learn.
- Significant industry knowledge relevant to industries served (architecture, exhibits, art).

- Strong visualization skills, including hand-drafting, computer aided modelling, drafting, model-making, and competency with various design tools (SolidWorks, Rhino, AutoCAD, and SketchUp).
- Effective written, verbal, and visual communications skills.
- Active listening proficiency.
- Ability to make clear and timely decisions.
- Strong organizational and planning skills – ability to prioritize, escalate, and complete concurrent and competing tasks while efficiently and effectively communicating status.
- Calm, controlled demeanor – ability to navigate conflicts, identify issues, facilitate discussions, and work with others to solve complex problems under pressure.

Additional Requirements

- Valid WA state driver’s license, enhanced driver’s license, or valid passport.
- Valid WA state automobile liability insurance.
- Ability to perform work in U.S. and Canada (no felony arrest record).
- Ability to participate in on-site field measurements, surveying, design workshops, and quality assurance.
- Willingness to participate in customer-required drug testing.

Benefits

In addition to a dynamic and creative culture, Turner Exhibits provides a generous benefits package that includes paid time off, (10) paid holidays, employer-supported health and dental plans, SIMPLE IRA match, a company-wide bonus program, and selected support for continuing education. Turner Exhibits is committed to total compensation practices that are fair, competitive, and reflect internal pay equity. At the time of posting this job, the salary range for this position in Lynnwood, Washington is between \$60,000 and \$80,000 annually. Total compensation offers are based on experience, education, and internal pay equity between employees with like-type roles and responsibility.
